Re: Formal notice and demand regarding planned screening and promotional statements about “Love Supreme”

We act for **John Doe**. This letter concerns your promotional statements and materials relating to the film “**Love Supreme**”, and the planned screening at **Innis Town Hall (University of Toronto) on March 14, 2026**.

1. Purpose

Our client is gravely concerned that your promotional communications (as publicly presented) appear to include **generalized and inflammatory claims** about an identifiable nationality/cultural group. Such messaging risks creating a hostile environment for members of that community and may foreseeably contribute to confrontation or intimidation at a university venue.

2. Demand

Our client demands that you:

1. **Cease** publishing or repeating generalized, dehumanizing, or hateful statements about identifiable groups in connection with the film or the Event;
2. Provide written assurance that the Event will not be used to promote hostility against identifiable groups and that any discussion will be conducted respectfully and without harassment;
3. If you are unwilling to provide these assurances, **withdraw the screening** from the venue and refrain from promoting it as proceeding at the University of Toronto.

3. Legal context (non-exhaustive)

Canada's Criminal Code includes hate-propaganda-related offences, including provisions addressing the **willful promotion of hatred against an identifiable group** (subject to strict legal tests and defenses). This letter does not make a final legal conclusion about whether any offence is made out; rather, it provides notice that the University venue context heightens the need for restraint and compliance.

4. Timeline

Please respond in writing by **5:00 p.m. (Toronto time) on March 10, 2026**.

5. Reservation of rights

All rights are reserved.

Respectfully,

Nicholas C Thatcher, Esq.
